

Clarence M. Oliva, CLSSYB

[09519643093] | [clarenceoliva107@gmail.com] | [github.com/clarenceoliva] | Tanauan City, Batangas, Philippines

PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Engineering graduate with hands-on experience in IT support, computer troubleshooting, software installation, and network setup gained through On-the-Job Training. Skilled in hardware maintenance, technical support, and system configuration with strong problem-solving, adaptability, and teamwork abilities.

EDUCATION

Bachelor of Science in Computer Engineering

[Tanauan City College] | [July 2, 2026]

TECHNICAL SKILLS

- Programming (C/C++, Python, CSS, HTML, Arduino IDE)
- Embedded Systems
- Microcontroller Programming
- Automation and Control Systems
- Computer Troubleshooting and Technical Support
- Network Setup and LAN Cabling

WORK EXPERIENCE

On-the-Job Trainee (IT Support / Computer Technician)

[TDK Philippines] | [Binan Laguna] | [December 2025 – February 2026]

- Provided technical support for computer hardware and software issues, including troubleshooting and maintenance.
- Assisted in computer assembly, disassembly, and component diagnostics for repair and replacement.
- Performed network-related tasks such as LAN cable crimping, cable organization, and connectivity setup.
- Assisted in the installation and configuration of networking devices, including routers and switches.
- Supported inventory monitoring and organization of IT equipment and office devices.
- Collaborated with technicians to resolve hardware and software concerns efficiently.

Home Based ESL Teacher

[Native Camp] | [2026 – Present]

- Conducted one-on-one and group English lessons
- Improved students' speaking, grammar, and pronunciation skills
- Adapted lessons to different learning levels
- Provided feedback and progress assessments

PROJECTS

- Autonomous Fish Feeding Device for Sustainable Aquaculture
- Microcontroller Based Projects
 - Home Security System
 - Remote-Controlled Claw Machine
 - Remote-Controlled Car

Seminars and Trainings

- Lean Six Sigma Yellow Belt
- Data Visualization of Safety Trends
- Safety Management in the Cyberspace
- Fundamentals of Robotics and AI Technologies
